## Seminal Weakness

Seminal Weakness.

Seminal emission is the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing with unerling certainty the following train of merbid symptoms, unless combatted by scientific medical measures, viz. Sallow countenance, dark spots under the eyes, pain in the head, ringing in the cars, noise like the rustling of leaves or rattling of charlots, unessiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, pimples and various cruptions about the face, heetic flushes, furred tongue, footid breath, coughs, consumption, night sweats, monomania and frequently insanity. If relief be not obtained, you should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating disease, which never fails of effecting a quick and radical cure.
